OBJECTIVE

I'm a Results-driven Frontend Developer with 2+ years of experience building high-performance, responsive web applications using modern JavaScript frameworks like React.js. Passionate about crafting seamless user experiences with clean, maintainable code while adhering to best practices in UI/UX, performance optimization, and accessibility. Key Strengths: - Frontend Expertise: Proficient in HTML5, CSS3 (Sass/SCSS), JavaScript (ES6+) and component-based architecture. - Framework Mastery: Strong experience with React.js (Hooks, Context API, Redux) . - Performance & Optimization: Skilled in reducing load times, code splitting, and lazy loading for faster, scalable applications. - Collaborative Mindset: Effective at working with **UI/UX designers, backend teams, and product managers in Agile environments. - Testing & Debugging: Experienced with Jest, Cypress, and React Testing Library to ensure robust, bug-free code. - DevOps Awareness: Familiar with CI/CD pipelines, Docker, and deploying apps via Vercel, or Netlify. Committed to continuous learning and staying updated with the latest frontend trends to deliver cutting-edge solutions.

EXPERIENCE

TechMpigo 25/04/2024 - 29/03/2025

Frontend developer

- Developed responsive and interactive web applications using React.js, HTML5, CSS3, and JavaScript (ES6+). - Collaborated with UI/UX designers to implement pixel-perfect, user-friendly interfaces while ensuring cross-browser compatibility. - Optimized application performance by reducing load times, implementing lazy loading, and improving rendering efficiency. - Integrated RESTful APIs and GraphQL endpoints to fetch and display dynamic data efficiently. - - Used Git/GitHub/GitLab for version control and followed best practices for clean, maintainable code.

EDUCATION

University of Osun state

software engineer

PROJECT

React Image Editor – Crop, Filter & Adjust

A lightweight, responsive image editor built with React.js. Features cropping, filters, brightness/contrast adjustments, and export options—all in the browser. Fast, simple, and no installs needed.

PhoneHub – Premium Phone Accessories Store

A sleek HTML, CSS & JavaScript e-commerce site for phone accessories. Browse cases, chargers, and screen protectors with cart functionality, product filters, and smooth animations—no backend, pure frontend magic! Tech: HTML5, CSS3, JavaScript (ES6)

WhatsLink – One-Click WhatsApp Chat Generator

A lightweight HTML, CSS & JavaScript tool to generate WhatsApp chat links instantly. Enter a phone number (or group ID) and message—get a shareable link with one click. No backend, no hassle!
